SPEAKERS FROM FRATERNAL EMBASSIES AND SOLIDARITY ORGS

PO Box 78900, London, SW16 9PQ :: 07827 501 420

With the capitalist economic crisis deepening every day, workers in all corners of the globe are suffering an acute cost of living crisis.

Instead of trying to address the people's desperate needs, the rulers of the neo-Nazi imperialist alliance, especially the USA and Britain, are responding to the crisis with austerity and repression for the masses at home.

At the same time, they are throwing huge resources into their rampant drive towards war, through which they aim to boost corporate profit-margins by dominating the world and suppressing all resistance to their looting.

With this war drive threatening to engulf the world, the World Anti-Imperialist Platform is bringing its focus to Latin America, where an international antiwar conference and mass rally will be held in Caracas, home of the Bolivarian Revolution and one of the centres of Latin-American resistance to imperialist domination.

On the same day, workers will be meeting and demonstrating all over the world, standing in solidarity with the forces of resistance in Latin America and elsewhere on the front lines of Nato's wars.

From Caracas to Paris, from Belgrade to Santiago, from London to Seoul,

WE DEMAND:

**US BASES OUT!
YANKEES GO HOME!**

**DISBAND NATO!
NO COOPERATION WITH
IMPERIALIST WAR!**
